

D.O.G.N

DogN is a bold new Web3 social networking platform that blends the fun of memecoins with the power of decentralization. Built for creators, meme lovers, and crypto fans, DogN lets users connect, share, and build communities, all while earning rewards in our native \$DOGN token. Whether you're posting a viral meme, commenting on a hot topic, or bringing friends onboard, your engagement pays off. More than just a social space, DogN stands with the Department of Government Efficiency (DOGE), a movement to streamline bureaucracy and boost transparency. Through our platform, users can champion this cause while enjoying a censorship-free, user-owned experience powered by blockchain technology. DogN isn't just another social network, it's a community where your voice, creativity, and participation shape the future. With a memecoin economy driving the fun and a mission to support smarter governance, we're here to shake up the digital world. Join the pack and redefine the future of social media!

D.O.G.N

The Memecoin Powered Web3 Social Revolution

A Decentralized Platform for Community, Rewards,
and Support DOGE (Department of Government
Efficiency)

Introduction

Vision

DogN exists to bring together the wild energy of meme culture and the cutting-edge possibilities of Web3. We're building a world where users aren't just scrolling—they're creating, connecting, and earning, all on their terms. Our vision is simple: empower people with a fun, decentralized platform that rewards their participation and supports smarter, more efficient governance. By blending the playful spirit of memecoins with blockchain innovation, DogN aims to give power back to the community while championing the Department of Government Efficiency (DOGE). It's social media, reimagined for the future.

Problem Statement

Today's social media is broken. Big platforms control what you see, censor what you say, and keep all the profits—users get nothing. There's no ownership of your data, no rewards for your time, just endless ads and restrictions. At the same time, government systems are often slow, bloated, and out of touch, wasting resources and frustrating citizens. People deserve better, a space where they're free to speak and a system that works efficiently for them.

Solution

DogN is the answer. We're a decentralized, community-driven platform that puts users in charge. Say goodbye to middlemen and hello to a social network where you own your experience. With our \$DOGN memecoin, every post, like, or share can earn you rewards. Plus, we're backing DOGE's mission to make government leaner and more.

The DogN Ecosystem

DOGN

Platform Overview

DogN is a lively Web3 social network where users take the lead. You can post your thoughts, share hilarious memes, comment on what's trending, and connect with others who get the vibe. Think of it like your favorite social app, but with a twist here, you're not just a user, you're part of a pack. Whether you're sparking conversations or dropping the next big meme, DogN makes it easy to have fun, build community, and stand out.

Memecoin Integration

At the heart of DogN is our token, \$DOGN: a memecoin that powers the fun. You earn \$DOGN just by being active: post something awesome, get likes, invite friends, or join the chatter, it all adds up. What's it good for? Use it to tip your favorite creators, vote on platform decisions, or unlock cool extras like custom profiles. \$DOGN isn't just money, it's your ticket to shaping DogN and getting rewarded for what you already love doing.

Decentralized Architecture

DogN runs on Web3 tech, like blockchain and smart contracts, to keep things open and fair. No shady corporations pulling strings here—everything's transparent and stored on a decentralized network. That means you control your data, not us. It's secure, it's user-owned, and it's built to last. With DogN, you're not just scrolling—you're part of a system that puts power back in your hands.

What is DOGE?

The Department of Government Efficiency (DOGE) led by Elon Musk is a movement to make government better. Its goals are simple: cut through red tape, reduce waste, and make things more transparent for everyone. DOGE wants systems that work faster and smarter, saving time and money while keeping people in the loop. It's all about efficiency and trust—giving power back to the public.

DogN's Role

DogN stands with DOGE by bringing its mission to life. Our platform sparks conversations about efficient governance, letting users share ideas and raise awareness through posts and memes. We're a community that cares—users can discuss what matters and push for change. Plus, a portion of \$DOGN token proceeds may go to DOGE-inspired causes, fueling real-world impact. With DogN, you're not just socializing—you're supporting a leaner, clearer future.

Token Economics

Token Information

Token Name: **DogN Token**

Symbol: **\$DOGN**

Contracts: **Update soon...**

Total Supply: **100,000,000,000**

Distribution

The team and advisor tokens will be locked for 3 years, and reward tokens will be gradually unlocked over 2 years.

PRESALE

35%

Percentage of the supply dedicated to presale purchases. Presale is live now. During presale, token purchases can be staked to earn a significant APY%.

REWARDS

30%

Percentage of the supply to be utilized for the betterment and incentivization of the community to self promote, share, and grow the Meme Index brand.

PUBLIC SALE

20%

The public sale allocates 20% of the total token supply, enabling broad investor participation. This phase ensures liquidity, decentralization, and funding for project growth.

TEAM

5%

The team is allocated 5% of the total supply, ensuring strong commitment, innovation, and sustained development for long-term success.

ADVISOR/ MARKETING

5%

Advisor & Marketing are allocated 5% of the supply, ensuring expert guidance, industry expertise, brand awareness, and strong user adoption for sustainable growth.

CEX LISTING

5%

CEX Listing is allocated 5% of the supply, ensuring strong exchange liquidity, accessibility, seamless trading, and increased exposure for broader market adoption.

Token Economics

Rewards Mechanism

Earning \$DOGN is fun and straightforward. Users get tokens by being active on DogN. Post quality content—like a killer meme or a smart idea—and watch the rewards roll in. Engage with others by liking, commenting, or sharing, and you'll earn more. Got friends? Invite them to join, and you'll snag \$DOGN for every new user who jumps in. It's all about rewarding the stuff you already love doing—creating, connecting, and growing the pack.

Deflationary Features

To keep \$DOGN valuable, we've got a plan. Some tokens get "burned"—taken out of circulation forever—when users spend them on special features like premium badges. This reduces the total supply over time, making each \$DOGN scarcer and potentially more precious. It's a simple trick to reward long-term users and keep the economy barking strong.

Features & User Experience

Harnessing Utility

The power of DogN

Social Features

DogN is your playground for social fun. Whip up memes with our slick creation tools and share them to go viral—top posts can skyrocket your fame. Customize your profile with cool avatars and bios to stand out. Join community groups to vibe with others over crypto, memes, or DOGE goals. Check the leaderboard to see who's ruling the pack—will you climb to the top?

Reward System

Earning \$DOGN is a blast. Get a daily login bonus just for showing up. Post killer content and watch upvotes turn into tokens—go viral, and the rewards explode. Engage by commenting, sharing, or inviting friends for extra \$DOGN. Hit the leaderboard by racking up points, and unlock bragging rights plus bonus tokens. It's a game where every move pays off.

Web3 Benefits

DogN's Web3 roots put you in charge. You own your data—no shady middlemen here. It's decentralized, so there's no central authority to censor your viral hits or tweak the leaderboard. Everything's transparent and secure, giving you a free space to shine, compete, and connect without limits.

Risks & Disclaimers

Understanding the Risks

DogN is exciting, but it comes with risks. The crypto market can be a wild ride, \$DOGN's value might jump or drop fast, and there's no guarantee of profit. Rules around crypto could change too; governments might step in with new laws that affect how DogN works. Tech glitches or security issues could pop up, even though we're built on solid Web3 foundations. We want you to know the full picture before jumping in.

Here's the deal: This isn't financial advice. We're not telling you what to do with your money. Joining DogN—whether it's using the platform, holding \$DOGN, or anything else, is your choice, and it's at your own risk. Do your homework, think it over, and only play if you're comfortable with the ups and downs.
